ABOUT US

We are an independent institution that has been imparting a fun way of learning self defense for kids from the age of 3yrs. Our instructors specialise in focusing on developing your child from the inside out with the potential of increasing self esteem, confidence and self awareness.

We believe every child should be equipped to discern and evaluate according to their environment and display the necessary avoidance and safety techniques. We strongly encourage and promote the family unit and believe that parent participation is vitally important. your child will be aided with his or her motor skills development, hand eye and foot co ordination, muscle development, as well as balance. All lessons are taught at grass root levels to include and stimulate social awareness.

Our kids always have the fun and exciting opportunity to display their skills at our tournaments and gushgus that are held on an annual basis.
